

# Spring 1

## Space

By the end of this topic, I should know:

That we live on planet Earth and that there are other planets, a Sun and moons in our solar system.

How Winter is different to Autumn and the signs to look out for Spring.

Some of the history of space exploration, such as Neil Armstrong being the first man on the moon.

That some things can change state (e.g. freeze or melt) and those that can be changed back.

That my private parts are my own. Say no and tell someone.

About similarities and differences that our celebrations and culture have to China.

That different places look different for different reasons, e.g. Earth and the moon, and why some places are better for different purposes, e.g. space rocket launches.

How to make a stop-motion animation.

How to make a simple circuit.

### SKILLS

**Gross Motor:** Hop confidently on either leg.

**Fine Motor:** Cut along a line with scissors.

**Personal, Social and Emotional:** Understand and follow the school rules.

**Communication and Language:** Give own opinion using clear sentences.

**Creative:** Engage in making music.
